Hydrant Water.—Those who drink the hydrant water little know what an amount of indigestible filth—a prolific germ of disease—they take into their stomachs. If the science and ingenuity of the age can produce any means by which the water can be clarified, there should be no delay in the application of those means. The river is the receptacle of the filth of every city and village, of every steamboat, and of all the dead animals along its banks. The thought of drinking water intermixed with so much poisonous filth, is absolutely repulsive, and the use of it dangerous. It is but little better than a cess-pool, from which even thirsty animals turn in disgast. To exclude this filth from the river and preserve the water pure is impossible. If it must be used, some means of cleansing it is imperatively demanded.

U. S. MARSHAL.—Soon after his first inauguration as President, Mr. Lincoln appointed Mr. E. M. Norton, of this city, U. S. Marshal for the Western District of Virginia. The breaking out of the war and its continuance for four years, made the position a very trying and unpleasant one, imposing more arduous labor and heavier respons bilities than had heretofore pertained to the office. These duties Mr. Norto has continued to discharge to the entire satisfaction of the authorities up to the present time. But having become an active member of one of our large iron manufacturing firms, he sent in his resignation as Marshal, and has been awaiting the appointment of his successor in order to be relieved from the duties of his position. Mr. Samuel McCullough having been appointed to fill the vacancy, Mr. Norton will close up his official duties at the end of the present term of the Federal Court.

This is to certify that I had been lying in the hospital at Pittsburg, eight months under medical treatment, and received no benefit until hearing of Dr. McBride in Pittsburg, I was induced to send for a bottle of his medicine. My disease was inflammation of the kidnerys, derangement of the liver, and dyspepsia. I was under the impression many times that I could not possibly recover, but by following Dr. McBride's directions I am happy to say that I have been perfectly restored to be alth, and able to do a full day's work.
